MoM 5-3-25

Date: 5-3-25

Time: 3:30 p.m. dopahar ke

Attendees: Siddharth Mago, Nilanjana De, Shravani K, Aviral Malhotra, Uncle John

Meeting Platform: Physical

Agenda:

- Website design approval based on feedback of last design

Discussion:

- The team showed 3 different designs to the client.
- The team had a discussion with the client for the choice of technology for the backend.
- The client will reach out to the team confirming the use of MongoDB for the backend.
- The team discussed roadmap for the future.

Client's feedback:

- Announcements should automatically change.
- Section for campus offices must be on the front page.
- The client wants a sidebar to be implemented for filtering the results.
- The FAQ section should have a form so students can submit new questions.
- These questions will get approved by the super admin.
- Pending approval should have a comment option alongside accept/reject.
- Edit file option should allow the user to upload a new version of the same file. Editing the same file should not be allowed.

- User should be able to compare two files side by side.
